

## Sofa & Carpet

### **Descriptions:**

Concentrated product designated to remove urine stains from carpets, upholstered furniture, and other soft surfaces. Efficiently removes both fresh and old stains. Thanks to the modern, bio-enzimatic technology, it eliminates the uric acid, being the main ingredient of the urine. Our product is entirely biodegradable and safe for animals and humans.

### **Recommendations:**

To remove urine stains from carpets, upholstered furniture, and other soft surfaces

### **method of use:**

Before the first application test the colour fastness on a surface located in an unexposed place. Remove the visible impurities. Spray thoroughly the place, paying attention to well cover the borders of the stain. Leave for several minutes and wipe with a damp cloth or sponge in order to remove the remaining impurities. Repeat when needed. When it comes to the old stains, leave the product for few hours and cover the place with a foil to protect it from drying.

### **Capacity:**

500 ml

### **Composition:**

Aqua, Sodium Lauryl Sulfate, PEG/PPG-27/30, Copolymer, Copolymer-3, Enzymes, Nonoxynol-9, Parfum, Sodium Benzoate.
